ISNails®

Inspiring Spark Nails

CRY OF THE SOUL

A year ago, when I learned that on September 1st new restrictions would come into force across Europe and Switzerland, I was truly glad. It seemed to me that we would finally be working with products safer for the health of clients and nail technicians.

But very soon came disappointment. I discovered that 13 ingredients had been banned at once — ingredients directly affecting the durability and hardness of nail products.

For example, thanks to TPO, bases used to last up to 30 days, and on thin or moist nails about 14 days. Now this time has been cut in half. For nail technicians, this is a serious problem, and I felt it myself: I did manicures for clients and, after a very short time, had to redo the lifting again and again at my own expense. I even began to lose long-time clients.

For the nail industry, this is a real catastrophe. That is why I decided to include in my catalog detailed working formulas with the new gels and bases, to protect my colleagues as much as possible from such situations. You must warn your clients: these products are more delicate, and lifting will appear sooner than before. Believe me, I have done everything possible to create the most reliable products for you. I myself am a nail technician with many years of experience, and it is unpleasant for me to redo work for free, especially for clients who have been with me for over 13 years.

I contacted several factories, tested numerous materials, and requested the most adhesive bases and the hardest gels. But the reality is: products without TPO will never last as long as they used to.

There were also unpleasant experiences. One factory initially produced good products for me, but when I requested the documents for registration in Switzerland, they admitted that everything contained TPO. Worse, they even offered to send me fake labels for registration. Naturally, I refused — such risks could turn into huge problems. And, as I found out, some brands consciously take this risk — which deeply outraged and disappointed me.

I categorically refused to sell the products with banned ingredients that were pushed on me, and I had to throw away the entire stock. These were my losses, but I chose honesty and safety over risk and dubious profit.

So be careful: if you continue to purchase products from former suppliers, and your products are suddenly checked, you may face a fine of up to 10,000 francs.

Believe me, I have done everything on my part to make it as comfortable as possible for you to work with my products. And I will continue to improve them for you. After all, I myself work with these products, and for me, the comfort of my clients and my own peace of mind will always be more important than any material gain.

Sincerely,
Iryna Abelman

🤝 **We are looking for partners!**

If you are a **school** or a **large salon**, we can offer you special and advantageous conditions.
Contact us: contact@pro-isnails.com / 078 943 6218

-  Bigger order — bigger savings!
For orders over **100 CHF**, we cover the shipping costs for you.

Your benefits with larger orders

Orders from **500 CHF** to **1000 CHF** —
20% discount.

Orders from **1000 CHF** to **2000 CHF** —
40% discount.

🌸 ISNails — a brand in development

Our company is young, and this gives us room to grow and evolve. Step by step, we are expanding our range, adding new products as our brand develops.

💅 Gel Polish Palette

Soon you can expect a collection of **100 of the most demanded shades** — the ones clients ask for again and again, like fresh croissants in the morning. This palette was not chosen randomly: it is based on **16 years of personal practice**, carefully observing which colors are truly in constant demand.

✨ Bases and Builder Gels

The same principle applies to our **builder gels, rubber bases, and camouflage colors**. We are starting with the most popular shades, and then the palette will **continue to expand**, offering even more choices for professionals.

🎓 Training and Education

I also plan to organize **masterclasses, seminars, and training courses** — both to teach how to work with ISNails products and to help professionals improve their skills and qualifications.

Base and Rubber Base

ISNails rubber bases and gel bases are designed for perfect leveling and strengthening of the nail plate. With high elasticity and durability, they provide long-lasting coverage, preventing chips and cracks. Easy to apply, they are ideal for all nail types, including thin and damaged nails. The hypoallergenic formula and minimal odor ensure a comfortable experience for both the technician and the client. With ISNails rubber bases, your clients will enjoy a flawless manicure that remains resilient over time.

Soft tips /American Nails

American soft tips are a new gel-based technology, an alternative to traditional extensions with forms. They offer a natural look, comfortable wear, and reduce extension time with their pre-shaped design and minimal filing. Strong and transparent, they provide a long-lasting, natural result, ideal for both technicians and clients.
